Full-stack Engineer experienced in developing and maintaining web applications using Node.js, React.js/Next.js, PSQL, WordPress, and PHP. Skilled in CI/CD, RESTful APIs, and integrating third-party services. Proficient in AWS services for web application deployment, hosting, and scaling. Strong in DevOps practices, automated testing, and keeping up-to-date with industry trends.

PROFESSIONAL EXPERIENCE

- Full-Stack Engineer, SpeedLane (Previously known as Postlight)** 04/2021 – present
Beirut, Lebanon
- Developed and maintained Node.js, React.js/Next.js, PSQL, WordPress, and PHP web apps.
 - Collaborated with cross-functional teams to deliver high-quality software that met customer needs.
 - Created RESTful APIs for seamless front-end and back-end communication.
 - Integrated third-party services and APIs for enhanced functionality and UX.
 - Utilized AWS services (EC2, S3, RDS, Lambda) for app deployment, hosting, and scaling.
 - Set up monitoring/logging tools (CloudWatch, ELK Stack) for performance tracking and issue.
 - Implemented DevOps practices (CI/CD) to streamline software development and deployment.
 - Participated in code reviews, testing, and debugging for quality assurance.
- Frontend Developer, Netways** 11/2018 – 03/2021
Beirut, Lebanon
- Designed, developed, and maintained React.js/Next.js, Redux, and SCSS solutions for government clients.
 - Collaborated with teams for on-time delivery of customized solutions.
 - Utilized Azure products for efficient app deployment, hosting, and scaling.
 - Built custom chatbots for enhanced functionality and UX.
 - Implemented agile methodologies and DevOps (CI/CD) for efficient software development.
 - Conducted performance tests and optimizations for faster software.
 - Communicated with clients for requirements gathering and demo.
 - Ensured compliance with government regulations and standards.
